

- 8/2003 – 8/2008 University of Tennessee Knoxville, TN
DEPARTMENT OF MECHANICAL, AEROSPACE, AND BIOMEDICAL ENGINEERING
- Graduate Research Assistant in the Micro-Nano Scale Fluidics and Energy Transport (MINSFET) Laboratory.
 - Graduate Teaching Assistant for junior level instrumentation and measurement course.

- 1/1999 – 2/2000 United Technologies Corp. W. Palm Beach, FL
PRATT & WHITNEY MILITARY ENGINES & LIQUID SPACE PROPULSION
- Co-op student for three semesters during sophomore and junior years.
 - Assisted engineers in the Rotor Lifting and Fracture Mechanics and Rocket Aerothermal Design groups.
 - Awarded a Pratt & Whitney Appreciation Award for excellent work.

RESEARCH EXPERIENCE

ORNL HERE SUMMER FACULTY RESEARCH PROGRAM

- Performed research on design of the Dual Cooled Lithium Lead (DCLL) Thermal Blanket Module (TBM) for an experimental fusion reactor to extract heat for power generation and to breed the hydrogen isotope tritium for fuel production.
- Used ANSYS CFX[®] to model helium gas coolant flow with rib roughened surfaces to enhance heat transfer.
- Combined ANSYS CFX[®] with commercial optimization software (VR&D VisualDOC) to pursue optimal cooling configurations for the Fusion Nuclear Science Facility (FNSF) Spherical Tokamak centerpost.
- Performed a preliminary cooling design and analysis for a protective scraper element in the Wendelstein 7-X Stellarator in Greifswald, Germany. Modeled twisted tape heat transfer enhancement using ANSYS CFX[®].
- Simulated the Shattered Pellet Injection (SPI) concept for ITER Disruption Mitigation Systems using LS-DYNA[®] explicit finite element software.
- Designed and analyzed cooling effects on 140° miter bends for ITER high power electron cyclotron heating (ECH) transmission lines (TL).

MICRO-NANO SCALE FLUIDICS AND ENERGY TRANSPORT (MINSFET) LAB

- Past research dealt with experimental studies of nanofluid droplet evaporation using a microheater array as well as nanoparticle thermophoresis.
- Dissertation research focused on the understanding and numerical modeling of high temperature, liquid metal, thin film evaporation.
- Research was funded in part by NASA and the Air Force Office of Research.

NASA REDUCED GRAVITY STUDENT FLIGHT OPPORTUNITY PROGRAM

- Served during 2001-2002 as project manager for an undergraduate two-phase flow, microgravity experiment that flew aboard NASA's KC-135 "Weightless Wonder."
- Accomplished research that simulated forced convection film boiling in microgravity and ascertained how static mixer geometries affected heat transfer to fluid.

TEACHING EXPERIENCE

ASSOCIATE PROFESSOR, *LIPSCOMB UNIVERSITY*

- One of four mechanical engineering faculty in a department of about 100 students.
- Teaching courses across the Mechanical Engineering curriculum including: Introduction to Engineering, Dynamics, Computer Applications for Mechanical Engineers, Instrumentation & Measurement, Thermodynamics, Heat Transfer, Senior Capstone Design

ASSISTANT PROFESSOR, *UNIVERSITY OF EVANSVILLE*

- Taught courses across the Mechanical Engineering curriculum including: Introduction to Engineering, Dynamics, Numerical Methods, Thermofluids Lab, Thermodynamics, Heat Transfer, Instrumentation & Measurement, Advanced Fluid Mechanics.
- Participated in Spring 2013 ASEE *Virtual Community of Practice* to enhance undergraduate thermodynamics teaching using best practices in cognitive science and education theory.
- Advised over 9 hands-on, design/build/test projects that were integrated with under- and upper-classmen.

TEACHING ASSISTANT FOR *FRESHMAN HONORS ENGINEERING FUNDAMENTALS*

- UTK Fall 2008, Spring 2009
- Program includes 70 honors students and comprises lectures, problem sessions, and team directed “design, build and test” projects.
- Duties include directing hands-on problem sessions that apply engineering principles learned in lecture, grading homework, special instruction on team projects, and participation in the advising process.

INSTRUCTOR FOR *INSTRUMENTATION & MEASUREMENT (AE/ME 345)*

- UTK Summer 2004, Fall 2004, Spring 2005, Summer 2005, Summer 2008
- Independently taught a junior-level course for five semesters total with classes ranging in size from twelve to fifty students. Lectures focused on experimental measurement techniques and statistics for engineers.

LAB INSTRUCTOR FOR *INSTRUMENTATION & MEASUREMENT (AE/ME 345)*

- UTK Fall 2003, Spring 2004, Summer 2008
- Taught for three semesters total with classes of twelve students.
- Directed students in experiments including thermometry, flow measurement, statistical uncertainty, digital data collection, electronic filtering, first and second order systems, and strain measurement.

HONORS & AWARDS

UE Dean’s Outstanding Teacher Award	2014
UT College of Engineering Fellowship	2005-2007
Tennessee Space Grant Consortium Scholarship	2000-2002, 2004
UT MABE Outstanding Senior Award	2002
UT Christian Student Center, <i>President</i>	2000-2001
UT Marching Band, <i>Tuba</i>	1997-1998, 2000
National Merit Scholarship	1997-2002
UT Bicentennial Scholarship	1997-2002
Boy Scouts of America Eagle Award	1997

PROFESSIONAL MEMBERSHIPS

Registered Engineer Intern (EIT), *State of Tennessee*
 Tau Beta Pi Engineering Honor Society (TBPI)
 Sigma Gamma Tau Aerospace Engineering Honor Society (Σ GT)
 American Society of Mechanical Engineers (ASME)
 American Society for Engineering Education (ASEE)
 American Nuclear Society (ANS)
 Council for Undergraduate Research (CUR), *Engineering Division Councilor*

SERVICE

- **Therapeutic Playground Project**, 2015-Present: Representing Lipscomb University in part of a 3 year project to plan, prepare, and construct a therapeutic playground park specifically for disabled and special needs children at the Little Hands, Big Hearts ministry in Trujillo, Honduras. Leading annual engineering mission trips to Trujillo. Transformed "Introduction to Engineering" freshman lab course in 2017 to focus on human-centered design process through Engineers for Change (E4C) to design therapy equipment for the playground.
- **UE Engineering Explorers Post**, 2012-2014: Co-led a program from the Learning for Life Corporation and Boy Scouts of America. The program was open to local high school students and met on Monday nights every third week. We offered hands-on activities that introduced the students to career options in engineering.
- **Dominican Republic Solar Thermal Hot Water Senior Design**, 2009-2010: Served as a faculty advisor to a group of UE students who designed and installed a solar hot water heater at a NGO in Santiago, Dominican Republic.
- **High School Introduction to Engineering Systems (HITES) Program**, July 2008: Developed and taught a hands-on introduction to engineering course to minority students for the UT College of Engineering Diversity Program.
- **Mechanical Engineering Senior Capstone Design**, 2004-2006: Initiated research in microgravity two-phase flow droplet entrainment and advised student teams in their senior capstone design for the NASA Reduced Gravity Student Flight Opportunity Program.
- **Baxter Bible College, Tegucigalpa, Honduras**, 2003: Volunteered with several Christian ministries and community service organizations in and around Tegucigalpa, Honduras during the spring and summer semesters of 2003.

CONTINUING EDUCATION

- **Protecting Human Research Participants**, 28 June 2017, *National Institutes of Health (NIH) Office of Extramural Research*, Certification Number 2442079.
- **Introduction to Engineering for Global Development**, 27 June 2017, *IEEE Educational Activities Certificates*, 1 CEU/10 PDH.
- **Thermodynamics Virtual Community of Practice**, Spring 2013, *American Society for Engineering Education (ASEE)*: Participated in a "Virtual Community of Practice" to enhance undergraduate thermodynamics teaching using best practices in cognitive science and education theory. Faculty from about 26 colleges and universities were selected to attend and collaborate on weekly virtual meetings throughout the Spring 2013 semester.
- **Spanish Language Immersion**, 27 February 2003, *Instituto de Lengua Española, San José, Costa Rica*, Certificate of completion of 300 hours of classes in Spanish as a second language.
